THE TRUDEAU SANATORIUM  
AND  
THE EDWARD L. TRUDEAU FOUNDATION

THE TRUDEAU SANATORIUM was founded in 1884 by the late Dr. Edward L. Trudeau to help self-supporting people suffering from tuberculosis.

The institution was definitely intended for those who could pay only part of the cost. The deficit in maintenance is and always has been made up by annual gifts from the public and income from endowment funds. The charges to patients average three-quarters of the cost, but from fifteen to twenty percent receive further assistance from the Free Bed Funds. Additional endowment for the general maintenance and for the Free Bed Funds is greatly needed and legacies are desired to strengthen the now enlarged institution.

The following brief summary sets forth the objects and departments of the institution as now carried on:

1. *The Trudeau Sanatorium* is for the treatment of favorable types of pulmonary tuberculosis and for patients of limited means. The full capacity is 200 beds.

2. *The Edward L. Trudeau Foundation* is an endowment fund in memory of Dr. Trudeau, established in 1916, for the support of research and teaching in tuberculosis. The fund is devoted to the following purposes:

- a. *The Trudeau School of Tuberculosis* for the instruction of physicians, gives a four and six weeks' post-graduate course covering the modern diagnosis and treatment of tuberculosis.

- b. A system of *Fellowships* for study and research in the Sanatorium and laboratories, which provide support for young physicians and scientists while undergoing treatment.

c. *The Research and Clinical Laboratory*, located at the Sanatorium, containing facilities for the study of bacteriology, chemistry and pathology. The same building houses the *Lawrason Brown Memorial Medical Library*. The *Physiological Laboratory* occupies the basement of the Recreation Pavilion.

d. A department for *Statistics*, and for recording the annual reports of patients.

e. *The Saranac Laboratory for the Study of Tuberculosis*, in the village of Saranac Lake, which was formerly the private research laboratory of Dr. Edward Livingston Trudeau and is now the headquarters of the *Trudeau School* and of pathological study and research.

Annexed to the Saranac Laboratory is the *John Black Room* and medical library, which serves the *Trudeau School* and *Fellows* as well as the village physicians as a lecture room.

## THE REPORT OF THE PRESIDENT

ON BEHALF of the Board of Trustees, I have the privilege to report another successful year in the operation of the Trudeau Sanatorium. The medical care of the patients continues to be of a very high order and the results of treatment have been excellent. Housekeeping has been difficult under wartime conditions, but under Mr. Wood's efficient administration, despite the difficulties, standards have not been lowered, although the cost of living has been increased.

The need for larger infirmary facilities to provide increased bed care, as demanded by modern methods of treatment, and also for better provision for patients needing modern surgical procedures have engaged the earnest attention of the Trustees and tentative plans are being considered which may have a considerable influence upon the future of the Sanatorium. It is recognized, however, that any definite plans involving a considerable building program will need to await the end of the war, but post-war planning appears to be in order for us as well as for so many other activities in our country.

Inasmuch as I have retired this year as President after an incumbency of seventeen years, I wish to take this opportunity to acknowledge with deep appreciation the wholehearted support that I have had during these years from all members of the staff and from our many friends among the general public. Due to this, the institution has maintained the high standards set by its founder and remains outstanding in the field of sanatorium care and also in the advancement of medical knowledge.

I know that this support will continue to be given to our new president, Dr. Francis B. Trudeau, as he enters upon the pleasant but responsible duties which now devolve upon him. A new and younger regime affords opportunities for greater progress and I am confident that this will be achieved.

JAMES ALEXANDER MILLER, *President*

ANNUAL REPORT  
OF THE  
CHAIRMAN OF THE EXECUTIVE COMMITTEE  
OF THE  
TRUDEAU SANATORIUM

FOR THE YEAR ENDING SEPTEMBER 30, 1944

ANOTHER WAR YEAR has been weathered, in some respects the most difficult one for Trudeau thus far.

The average daily census of patients was 200.47 (a fraction greater than 1942-43, 200.4).

But for an epidemic of influenza in November and December, 1943, the census would have been substantially greater, because admission of new patients was suspended for several weeks. Moreover, the epidemic, though only moderately severe, afflicted so many of our nurses and other employees that fewer patients could be cared for. The census dropped to 165 while about 40 persons were ill at the height of the epidemic; fortunately few patients were victims and no permanent harm followed. In addition to the loss of income due to the epidemic, substantial increases, long overdue, in the salaries of our nurses were made to meet the standards in force by the state association of nurses.

The increased operating cost was about \$14,500.00; more than the increase obtained from the \$1.00 a week in charges. As a result there was an increase in the per capita of \$1.00 per week in comparison with 1942-43 (\$27.80 from \$26.80). There was an increase in donations to the General Fund of \$914.00 but a decrease in interest and dividends of \$1,436.00. There were legal fees amounting to \$5,800.00 in connection with legacies. The net operating deficit, not including the legal expenses, was \$1,986.10.

The fact that the raises in salaries and other items may not keep step with the rising cost of living poses the question of a further in-

crease in such costs, with a further deficit and the necessity of again increasing the charges to patients unless or until substantial gifts are received. Some legacies are being received, but larger sums are required for an adequate income from safe investments.

Death has taken another of our regular contributors during the past year — Mr. William G. Irwin of Indianapolis, Indiana, well known for his wide interests in human welfare, donated annually to our Free Bed Fund, died in December, 1943.

| Balance Sept. 30, 1944 -----                 |           | None      |

The funds were again insufficient to meet the worthy demands for assistance and required a special appropriation from reserve funds to meet the deficit.

It is gratifying to have the generous contribution from the Davella Mills Foundation continued and the continuing interest in this object of an increased number of former patients.

*Employed Ex-Patients:* There were 39 ex-patients who earned about \$33,000.00, not including 14 older employees who once were patients. Approximately 25 other ex-patients earned about \$41,000.00 in the activities supported by the Trudeau Foundation.

*Construction and Improvements:* These have been alterations for the most part to provide living quarters for employees. A kitchenette was added to the James Memorial, and the Physiological Laboratory was moved from the Medical Pavilion to the basement of the Recreation Pavilion. The former laboratory on the third floor of the medical building was re-arranged as an apartment for a married couple. Until we can provide for families of several married employees they must be housed in the Village of Saranac Lake or near-by houses. At the summer meeting the Superintendent was authorized to secure the rental of a desirable house adjoining the Sanatorium.

*Women's Auxiliary:* Furniture for the Main Building, James Memorial Cottage and Service Building recreation room has been the principal addition in the refurnishing program. Mrs. Trudeau, treasurer, reports the following receipts and expenditures:

|  |            |
|--|------------|
| Balance on hand October 1, 1943 -----      | \$1,067.65 |
| Receipts:                                  |            |
| Contributions -----                        | \$275.00   |
| Dues -----                                 | 155.00     |
| Miscellaneous -----                        | 5.69       |

|  | <hr/>      |
| Balance October 1, 1944 -----              | 606.09     |

The Auxiliary has been very helpful in improving the appearance and comfort of the institution.

Many further details are published in the Medical Director's report.

#### THE DEPARTMENTS

*Administration:* As in many other institutions the shortage of help, especially in the housekeeping department, has been serious. The exodus of young women to the war industries has been the cause of closing of some private sanatoria in the Village of Saranac Lake thus creating a waiting list of patients for private care as well as for Trudeau.

In response to an appeal by Dr. Miller at the time of the summer meeting of Trustees, volunteer workers have been sought among patients who were ambulant. They helped to relieve the shortage of help in the dining room during the summer when over 200 patients were present. Miss Duggan has loyally met the strain, which has required much patience. Mr. Wood as Superintendent has also taken upon himself various tasks as emergencies arose and by his example set a standard of service. We are indebted to Miss Marguerite S. Klar and Mr. Lawrence ("Larry") Doyle for enlisting the aid of patients and personally assisting in the dining room.

*Purchasing Agent-Steward:* After 17 years of faithful service Mr. C. M. Hutchins, a former patient, resigned for family reasons. His

successor is Mr. George H. MacIntyre, son-in-law of Dr. Sampson.

*Medical Staff:* Owing to a temporary illness Dr. Schwartz, first assistant physician, was incapacitated for several months so that Dr. Heise was short-handed. The medical work was carried on by patient-physicians who were very helpful besides the regular interns, three of whom succeeded Drs. Hogan, Bandeian and Lester. They were Dr. Henry F. Parry (now second assistant), Dr. Orrin Levin, Dr. W. K. Hite, Drs. Philip F. Wagley, Henry M. Trask and George J. Digman. Others who rendered valuable volunteer service were Dr. Jerome Hartz, psychiatrist, and Dr. Dean Crystal, surgeon. Dr. Fred J. Christie served as summer intern from July 1 to October 1.

It is a pleasure to report that Dr. Heise has been made President of the National Tuberculosis Association, a very just recognition of his long service.

We have been unable to obtain a dentist since the death of Dr. Carr, so patients are referred to Saranac Lake dentists for the present.

*The D. Ogden Mills School of Nursing:* The continued shortage of nurses due to the war has been partly relieved and an increased number of affiliated students also helped to maintain the standards of care. Miss Mann was able to obtain a few new registered nurses, due in part to larger salaries now being paid.

One hundred affiliated students finished the eight weeks' courses and one graduate nurse studied at Trudeau.

Both Miss Mann, Superintendent, and Miss Mundie, Assistant and Instructor, have the confidence and appreciation of the Sanatorium staff and of many general hospitals which have been desirous of sending more pupils for instruction in tuberculosis than we are able to accommodate.

*X-Ray Department:* The increasing usefulness of the x-ray in diagnosis is shown by the number of examinations made. The total for the year was 6565 besides 361 taken at Benson Mines, 495 of Saranac Lake school children, and 798 miscellaneous and dental examinations.

Interpretations of films taken at various industries numbered 13,509, in addition to 645 of patients outside the Sanatorium.

The training of technicians in cooperation with the Saranac Lake

*Dr. Agrippa G. Robert (left), Assistant Director, and Dr. Homer L. Sampson, Director of the Trudeau X-Ray Laboratory Since Its Inception in 1912, Instructing Rehabilitation Students of the Saranac Lake Study and Craft Guild*

Study & Craft Guild was continued and 35 completed the course. They were practically all tuberculous patients who had become well enough to resume active life and were sent by the Rehabilitation Bureau of the U. S. Public Health Service.

The many years that Dr. Sampson has devoted intensively to the up-building of the X-Ray Department have made a long rest necessary and he has had a leave of absence for the past year. Fortunately his assistant, Dr. Agrippa G. Robert was able to take over the direction of the laboratory with the aid of several experienced technicians long familiar with the work as well as the teaching in the Trudeau School.

The receipts from the x-ray service have continued to cover the cost.

*The Lawrason Brown Memorial Medical Library:* Increasing use is being made of this valuable collection of books and periodicals which now number 6,844 volumes. Twenty-five journals are subscribed for though six foreign journals are no longer received due to the war. Miss Marjorie G. Smith, our energetic librarian, has furnished the medical staff with facilities for research while also interesting the Latin-American physicians attending the Trudeau School in the literature of tuberculosis. Last June Miss Smith made a study trip through the kindness of a personal friend and visited a number of libraries in New York City where she observed their methods.

*The Mellon Library:* There are now 8,773 volumes accessible to the patients and over 8,000 were in circulation last year. Additional books to the number of 236 were received; \$264.21 was spent for books for the rental section and \$297.00 was collected for this fund.

Miss Eleanor M. Mellon and Mrs. Walter B. James continued their subscriptions to periodicals besides other gifts. To them and to many other contributors warm appreciation is due. The assistance of Miss Mary O'Meara and Mr. Adolph Bergman is acknowledged with thanks.

*The Statistical Department:* Our efficient statistician, Mr. George D. Bisset, having his health restored, left the Sanatorium and obtained a position elsewhere. Miss Louise Shattuck, who had been a capable voluntary assistant, has succeeded to the position.

*The Chapel:* The Roman Catholic services were held by the Rt. Rev. Mgr. C. A. Kitts and the Rev. Fathers Argy and O'Connor. Father Gabriel and other priests of the Franciscan Friars of the Atonement also served. Protestant Episcopal services were held by Rev. E. B. Mounsey and the Lutheran Mission by Rev. Henry Ebelke. Rev. A. B. Gurley and Rev. Theodore Bundy were also helpful in pastoral visits and Christmas services.

*Entertainment:* The war has interfered with the presence of the usual musical and professional entertainers and the influenza epidemic curtailed some of the holiday celebrations. We enjoyed a piano recital by Mrs. Ditta Bartok, a Hungarian artist now residing in the vicinity. Acknowledgments are due her, and also to Mr. Albert Schulman, a former patient, for another prize quiz contest.

Dr. Francis Trudeau gave his annual talk on the early days at Trudeau on the anniversary of his father's birth, October 5th.

*The Workshop:* Miss Alma Pierce, the Director, reports an extremely busy year. A total of 381 patients received instruction in 14 crafts. As usual, leather and silver crafts were the most popular. In addition, 70 chose pottery. Altogether there were 15,394 hours devoted to crafts in the shop, not including bedside instruction.

Mrs. Mildred Blanchet, who has served so admirably as instructor in the infirmaries and rest cottages, re-married and left in the Spring. She was a gifted artist and is a real loss to our staff. Her place has been taken by Miss Jessie Jeffers whose talents are most promising in the field of embroidery, knitting, rug making, etc. During the year 133 bed patients received instruction. Miss Elizabeth Schiefer and Miss Millicent Pierce continue as assistants in the teaching and their skill is a valuable asset. Mr. Anthony diBona also contributed his expert knowledge of sculpture.

As for many years, Mrs. Meredith Hare has been a faithful supporter of the Workshop, which we are glad to acknowledge.

*The Saranac Lake Study and Craft Guild:* There were 66 Sanatorium patients able to take advantage of the education furnished by the Guild. Languages were chiefly the subjects chosen, 15 in English, 27 in

Therapy Workshop in the United States*

Spanish and Russian; besides: bookkeeping 7, stenography 6, and radio theory 11. Vocational training is contemplated for tuberculous patients who must enter new occupations after recovery. It is hoped that these plans will be made possible.

*Trudeau School of Tuberculosis:* The thirtieth session was held in September and October, 1944, with an enrollment of 28 physicians. There were twenty-four in attendance, eleven coming from Latin-America and three from Canada. The South and Central Americans (8) were sponsored by the Institute of Inter-American Affairs of the U. S. Department of Commerce and (2) by the Rockefeller Foundation. They were mostly engaged in public health work. Other students were recipients of scholarships from the National Tuberculosis Association, the Pennsylvania Tuberculosis Society and (8) granted by the Trudeau School. The session was notable for its international character, six students being from Chile, two from Brazil and one each from Ecuador, Venezuela and Nicaragua, besides two from Quebec and one from Nova Scotia.

The class contributed \$46.00 for a lectureship in the 1945 session, continuing the custom handed down from previous classes.

All but two attended the supplemental course at Bellevue Hospital given by the Faculty of Columbia University under the direction of Dr. J. Burns Amberson.

We are again indebted to the Lillia Babbitt Hyde Foundation, through Mr. Charles C. Harris, Director, for the full support of the School.

*Trudeau Foundation:* Continued research is being made in the field of industrial diseases with maintenance of a consultation service to industry. Dr. Gardner has been over-taxed by much travel to direct the field work. The x-ray surveys in men exposed to dust have been on a larger scale each year and the interpretation of the films has been an extra task for the Trudeau X-Ray Laboratory.

At the Physiological Laboratories Dr. Wright has progressed in studies of breathing capacity of patients and in following the treatment of silicosis in the Mineville Hospital of Republic Steel Corporation. The apparatus used in testing miners has been moved to Trudeau where a temporary laboratory has been set up in the basement of the Recreation

Building. Miners will be brought for study from Mineville and other ore fields in Northern New York, since Trudeau is more central and accessible to them.

The Lawrason Brown Fellowship was awarded to Dr. Giles Filley who assisted Dr. Wright in the research on respiration. Mr. Roy Grinnell has been assisting in the Mineville experiment and in the laboratory studies.

The death of Mr. Frank J. Tone, president of the Carborundum Company of Niagara Falls, and a distinguished chemist, removes one of the generous friends of the research in the Saranac Laboratory. He contributed liberally to its support and endowment, and having been a recovered tuberculous patient of our colleague, Dr. Kinghorn, maintained a constant interest in our work over many years.

## ACCOUNTANTS' REPORT

*To the Trustees of Trudeau Sanatorium, Trudeau, N.Y.*

We have examined the cash records of the Trudeau Sanatorium, Trudeau, N.Y., and of the Trudeau Foundation Funds, Saranac Lake, N.Y., for the year ended September 30, 1944. The foregoing summary of receipts and disbursements has been prepared therefrom and, in our opinion, fairly sets forth the transactions recorded therein.
